ANDERSON AND ROBERTSON, FREAR'S MEN SENATOR PERKINS IS BADLY HURT

Frear Support For Robertson

Indorsed Candidate For Federal Bench
—Has Praise For Judge
De Bolt

That Governor Frear recommended the appointment of A. G. M. Robertson as the Second Federal Judge of the District Court while in Washington is now definitely known. For Associate of the Supreme Court he gave an opinion favorable to the appointment of Robbins B. Anderson of the firm of Kinney, Ballou, Prosser & Anderson.

As a consequence the judgeship situation is the certainty of the appointment of Anderson to the Supreme Bench and the extreme probability that Governor Frear's recommendation will be sufficient to overcome the objections that have been made to the appointment of A. G. M. Robertson on the United States District Court bench.

When asked this morning concerning the developments in the filling of vacancies on the Supreme and Federal benches, Governor Frear stated that he had heard nothing from Washington as yet, and could hardly be expected to put himself in the attitude of announcing the probable appointments of President Taft—which might be construed from his announcement.

of any opinions he may have given to President Taft or Attorney General Wickersham.

In reply to an observation to the effect that the community seemed to think that the Supreme Court vacancy was between Judge De Bolt of the Circuit Court and Robbins B. Anderson, Governor Frear stated that he had a high opinion of Judge De Bolt's services on the Circuit Bench and believed that he was highly efficient in the discharge of his duties as a judicial officer.

"Should Judge De Bolt not be appointed to the Supreme Court it will certainly be no reflection upon him," said the Governor adding that De Bolt's long and able service on the Circuit Bench fully justified the expressions of confidence in Judge De Bolt.

The Governor stated that he had not had an opportunity to take any definite action on the filling of the vacancy in the office of Superintendent of Public Instruction, but that he hoped to make a beginning tomorrow in the consideration of the nominations.

GLAVIS TURNED DOWN

WASHINGTON, D. C., Jan. 6.—Attorney-General Wickersham made public today his final report on the charges made by Inspector Glavis against the land administration and Secretary of the Interior Ballinger. These charges were connected with the famous Cunningham land frauds and gave rise to the attack on the Secretary of the Interior that has resulted in a call for a Congressional investigation.

The Attorney-General declares in his report that the Glavis charges are not proven by the facts presented.

Labor Charges Against Trust

WASHINGTON, D. C., Jan. 6.—President Taft today received a delegation from the American Federation of Labor, who formally presented to him charges alleging fourteen illegal acts committed by the Steel Trust.

This is incident to the general campaign against the Steel Trust that has been started by organized labor on account of the insistence of the trust on the open shop.

The President heard the committee and promised that a thorough investigation should be made of the charges.

Registrar Lemon reports deaths from contagious diseases from December 17 to December 31, 1909, as follows: Tuberculosis, 13; typhoid fever, 1; tatarus, 1.

Major-General Barry received an official visit from Governor Frear yesterday afternoon. The Governor was accompanied by Colonel Jones.

HAWAII'S LADY CHAMPION TO COAST

Mrs. Coulter Will Play
Tennis Against
Champions

It is practically decided that Mrs. Coulter will represent Hawaii on the mainland tennis courts this year. C. G. Bockus, president of the Hawaiian Tennis Association, will, during his visit to the Coast, arrange for matches between Mrs. Coulter and Miss Hazel Hotchkiss, the present champion of the United States.

Mr. Bockus will also endeavor to get in communication with the representatives of Miss May Sutton, and see if matches can be arranged between the Hawaiian lady champion and the world's best player.

The Hawaiian Lawn Tennis Association will defray all expenses in connection with Mrs. Coulter's trip to the mainland, and she will be the properly accredited representative of these islands. Mrs. Coulter is considered to have an excellent chance of beating the mainland experts, and it will be a great boost for Hawaii if she succeeds.

The local champion lady player will go to the Coast next May or June, and the matches will be played shortly after her arrival there.

A CABLE has been received here to the effect that the supply schooner Florence Ward has sailed from Midway Island for Honolulu on January 5th.

MOANA IS MINUS HER CHIEF OFFICER

Saunders Is Badly Hurt
By Fall At
Suva

STRONG HEAD SEAS
DELAYED LINER

Several Theatrical People of Note
Are on Board—Brings Small
Cargo and Takes But Little Away
—to Sail For Suva Today.

Chief Officer T. C. Saunders of the Canadian-Australian liner Moana, now in port, was left at the general hospital at Suva, Fiji, badly injured and unconscious as a result of a nasty fall from the vessel's deck of a coal bulk below.

The accident occurred during the unloading of the Moana at the Pillan port. Saunders is said to have been looking after that branch of the work, and he was attending to the unloading of the coals, which to some extent, swung around and, striking the chief officer, threw him to the boat deck.

Officer Saunders rolled from the deck, and, hitting the rail of the coal bulk, sustained a series of bodily injuries which rendered him unconscious.

It was learned that the officer had three ribs broken by the fall, and there may be internal injuries, though the extent of these could not be learned until the injured man regained consciousness.

The sad accident had a depressing effect upon the corps of officers on board the Moana, where Saunders is well liked by his mates and associates.

Saunders is well and favorably known to Honolulu shipping people and he is said to have been quite keen on sports. He has been passing the time here.

HAWAIIAN PAPER CO. SECURES BIG ORDER

Paper Ordered For the New Code
Book is the Largest Order For
Paper For a Single Publication
Ever Placed in Territory.

The order for the paper for the American-Hawaiian Publishing Co.'s new Code Book has been placed with the American-Hawaiian Paper Co., and is the largest order for one grade of paper ever placed in this Territory.

The paper if placed in a straight line the width of the Code Book will cover a distance of fifteen hundred miles.

BEETS GO HIGHER

SAN FRANCISCO, Jan. 6.—Beets: 88 analysis, 12s. 9d. Parity, 47c. Previous quotation, 12s. 8 1/2d.

The booking of W. H. Habbitt for a trip to the mainland on the China, due to leave here on Friday of next week, gives truth to the fact that he is off for a gathering of Porto Rican laborers.

Malkin, who was charged with vagrancy at the Police Court this morning will be a guest at Asch's hotel for the next three months. His number will be around about 75 at the popular hostelry.

SENATOR PERKINS HURT

WASHINGTON, D. C., Jan. 6.—United States Senator George W. Perkins of California suffered a very serious injury today from slipping on the icy sidewalk. The Senator fell heavily, injuring his spine and bruising his body.

Mr. Huntington Wilson, who was with Mr. Perkins, fell similarly and was badly cut.

Big Ship Idaho Stuck In Mud

PHILADELPHIA, Jan. 6.—The battleship Idaho, Captain Dunn, one of the new 20-gun battleships of the navy, is ashore in the Delaware river.

South Frozen

KANSAS CITY, Jan. 6.—The thermometer registered eighteen below zero in this city this morning. The cold wave extends through the southern States, where the ground is covered with snow.

Seligman Dead

PARIS, Jan. 6.—William Seligman, the New York banker, died here today.

THE ARRIVAL of the American Hawaiian freighter Alaskan at Salina Cruz is reported through the local agency of the line. The Alaskan sailed from Kahului on December 19 and carried a large shipment of sugar pineapples and other Hawaiian products for the Isthmus.

MARKET REVIVES FOR MANY STOCKS

Rapid Transit Common
In Demand; McBryde
Advancing

Stock dealings took on a little new life this morning, having apparently recovered somewhat from the quiet following the holidays.

Large sales of Olan at 5.75 were reported between boards and those sold on the board at that figure made a total of 625 shares changing hands.

McBryde on the other hand advanced to six dollars on a sale between boards of 525 shares, and apparently cleaned up the market. The last previous sale as shown on the stock sheet was at 5.

Ewa is selling at 32.25, Oahu at 32.75, Pioneer at 198 and Pala at 140. This is the first sale of Pala since the increase of the capital stock.

Hilo Railway stock is gradually making its appearance on the list of sales and the public evidently refused to believe that there is "nothing doing" in Rapid Transit Common stock. Another sale of the latter stock was made today at 105. This is a very high figure for four per cent or even six per cent stock in this market, and the purchaser is apparently satisfied that he will either get an increased dividend or a stock dividend during the year.

Olan bonds sold at 100.25 and Hawaiian Irrigation at 100.

Crew Fled From Doomed Ship

British Bark Driven Ashore In Heavy
Northwesterly Squall—Fear
Total Loss

The British three-masted bark Alexander Black, now ashore about a quarter mile off the Pala mill, near Kahului, is believed to be a doomed ship unless the weather moderates to considerable extent, which will permit the steamers from the Inter-Island Steam Navigation Company getting their lines out to the distressed vessel and make a combined attempt to pull her off.

The Alexander Black now lies in a small bight between Sycamoreville and Pala mill, broadside to the shore, and she is hard and fast on what is declared a sandy and soft coral bottom.

The Alexander Black went on the reef late Monday afternoon during a heavy northwesterly rain squall which Captain Griffiths, the master of the vessel, states completely obscured the land, and it was only after the squall had passed and the curtain of mist had lifted that the skipper and his men realized their perilous position. The bark went on the reef bow on, with fore and mizzen topsails set, then turned around and now lies broadside, her port side

being piled on the coral and sand, while there appears to be plenty of water on the starboard side of the ship.

Immediately after going on the reef, Captain Griffiths and his men left the ship in their own boats, and they are now awaiting orders at Kahului. The skipper and the crew abandoned all their personal effects and belongings in their haste to leave what they believed a doomed craft.

The Alexander Black has piled herself up in a position not far from where the Sparta was wrecked some five years ago. It will be remembered that the Sparta came into Kahului with a full shipment of coal.

Several ineffectual attempts had been made to pull the vessel off, but she was finally abandoned, and later on a great deal of her coal was salvaged and the vessel was finally broken up.

The position of the Alexander Black is also not a great distance from where the wooden bark Columbia went ashore some three years ago.

Heavy Penalty For False Census Returns

Fine Not In Excess of \$10,000 And
Year's Imprisonment Prescribed
By Federal Statutes.

When the census man drops in for an official visit and proceeds to ask a number of questions—some of which may seem a trifle searching—tell him the truth and nothing but the truth. If you do not the law provides for the imposition of a monetary fine not to exceed \$10,000 or imprisonment for a period of not more than one year. Both fine and imprisonment can be imposed if the court sees fit.

The section of the Federal statute providing for the punishment of those attempting to evade the requirements of the census, states that "It shall be the duty of every owner, president, treasurer, secretary, director, or other officer or agent of any manufacturing

establishment of productive industry, whether conducted as a corporation, firm, limited liability company, or by private individuals, when requested by the Director of the Census or by any supervisor, enumerator, special agent, or other employee of the census office acting under the instructions of said director, to answer completely and correctly to the best of his knowledge all questions on any census schedule.

* * * Any person who shall refuse or wilfully neglect to answer any of these questions, or shall wilfully give answers that are false, shall be guilty of a misdemeanor, or imprisoned for a period not exceeding one year, or both so fined and imprisoned at the discretion of the court.

The penalty carries with it the stipulation that no publication will be made by the census office whereby the data furnished by any particular establishment can be identified and that only sworn employees of the department will be permitted to examine the individual reports.

Penalties are also provided for census employees who make public data contrary to the regulations. A punishment of a fine not exceeding \$2000 and imprisonment for not more than five years is prescribed for census employees who make false returns.
